

Dear

father I received your letter the 22nd of March. we were all glad to hear that you had arrived safe at your brother, and found all your friends well and comfortably situated. All remain here about as we were when you left. we are getting some very fine weather here now. I expect you have heard of the great railroad accident that happened in Canada since you left here eighty lives lost some from Lockport some from the High and various other places lost their lives. Eric's date for Berlin Monday next his health is very good. I expect you will be coming back soon.

There has not much of any change taken place in our own neighborhood north wrighting about since you left.

Yours
Asa Muren
