Tonawanda Aug 6/68

Father

Dear Sir I received yours of the 4th and was pleased to hear from you and to learn of your good health and also of the health of the friends thats it is a great blessing. not fully appreciated by all. you speak of hot and dry weather the Oldest Citizens say they never experienced the like we had a good rain three or fore days ago the only rain for a number of weeks, I have managed to do official busines early in the morning and Evening and lay in the Shade in the middle of the day. we have a very good Garden plenty of pease and Potatoes since the 4th of July.

Myself and Ann are well I heard her Say yesterday that She must get your Shirts done this week So as to do them up monday and have them ready by next week Campmeeting time being quite sure that you would come up. We shall be some disapointed in your not coming. may be it will be for the best but would like to have you come up you only stayed one or two dayes, perhaps you had better do So, you must judge for your self. I would be sorry if you should and on the act of be Sick. I occasion = ally take a man to Lockport Gaol, and put them in Lockup Some rather tuff Customers Last made 2, 15 This morning before brek

I will take the Shirts with me to Lockport when I go and leave them with William at the office and he can send them out to you if you dont come up sooner. Ann joines me in sending Love to you and all of the friends, we are well and have a competency. All that is liking is a sufficient degree of appreciation and thankfulness, perhaps we may growe into that as we become older, What do you think of that dad.

Yours respectfully,
from your sone
