Wells Faribault Co Minn.
October 11th 1870.

Dear Father,

Your Letter of recent date is received, & finds us all in tolerable health. The Weather continues mild; with no frosts as yet, to do any harm. Town has built up a considerable this season, and is still improving. The R. Roads to Winnebago City & Mankato are being built & expected to be in running order to these Towns in a few months, and a Station is already located at Minnesota Lake on the Mankato Road. — probably will not make much of a Town however as it is but 9 miles from this; & will not have so many advantages.

The Presbyterian Society are about building a $5000. Meeting House here. The Methodist

have no house here yet & but few Members. The Minister has quit preaching, rented a Hotel & gone to Beaver. A new one is soon to be sent to this appointment. However, so that we shall not be left destitute in that respect long. A Union Prayer Meeting is kept up, but rather poorly attended.

We think some of going back on to the Homestead in the Spring.

Fred has left home again; been gone about 2 weeks.

Your Son
